6/27/95

Dear Mr. Verdegiglio,

My work is limited to the assassination of President Kennedy and the investigations of the assassination. I therefore have nothing on his political relations with Italy. I also have no pictures in general of his life.

In connection with my eight published books I do have a few pictures relating to the assassination but the rights to them do not belong to me and I cannot give copies to anyone else to use. Besides which the search for them is now impossible for me.

Good luck with your project,

Harold Weisberg
